Application to the B.S./M.S. Program in Computer Science

Name _____ **Email** _____

SOLAR **ID number** _____ **Expected bachelor's graduation date** _____

Check box if you are: **Honors Student:** ☐ **International Student:** ☐

Computer science majors may apply for admission to a special program that leads to a Bachelor of Science degree at the end of the fourth year and a Master of Science degree at the end of the fifth year. Students must satisfy the respective requirements of both degrees, but the main advantage of the program is that six credits may be simultaneously applied to both the undergraduate and graduate requirements.

Students usually apply to the program in their junior year. Applications are reviewed, and must be approved, by the Computer Science Graduate Admissions Committee. The application process is competitive. To be considered applicants must have a GPA of 3.25 or higher, both overall and in major courses, and completed at least three upper-division computer science courses at Stony Brook. Applications must also include (i) a statement of purpose, (ii) a one or two-page resume, and (iii) two or three recommendation letters, at least one from a computer science faculty member.

List all the upper division (200,300,400-level) CSE courses you have completed:

Course number	Course title	Semester	Grade

Compute the GPA of your CSE courses: _____

Enclose your statement of purpose and resume. Please list the name, department and e-mail address of your Recommenders. Recommendation letters can be emailed directly by recommender to the CS Undergraduate Secretary or delivered in a signed, sealed envelope.

Recommender 1 _____

Recommender 2 _____

Recommender 3 (optional) _____

Submit your application to the Computer Science Undergraduate Secretary.

I certify that the information provided by me with this application is correct and that I have read and understood the description of the B.S./M.S. program available on the Computer Science Department's website.
