

CSE 651

Seminar of Application

Raksik Kim
raksik@cs

Function 1

- ✓ I want to give them motivation to use our program.
(When they sell a specific amount of items, the application will show something that they can buy)

if sell \$5

if sell \$10

if sell \$25

COMMENTS:

Because people in Senegal have not been educated long enough, they do not have economical thinking or concept, I think. To give it to Senegal people, I want to make an application such as fisher-profit-loss software.

- ▶ They can learn deposit through this program. When they gain some profit from their own business, this program will show some image that they can buy with their profit. Therefore they can feel the importance of saving (deposit) naturally.

Function 2

- ✓ Display total income per weeks, months (not just total income.)
- ✓ Show average of profit monthly, and Compare that of every month

Ex)

...	JAN(1) : \$10
2th week: \$4	FEB(2) : \$12
3th week: \$19	MAR(3) : \$8
...	APR(4) : \$19
.....	...
Total: \$89
	Total: \$500

Other functions...

- ✓ Store about expenditure and employee's salary.
(Due to this function, they can manage their profit)
- ✓ Picture-based application
