

SUMMARY 6

Meeting Thursday, November 13, 2008

TO EVERYBODY (Christelle suggestion)

Use flow charts to represent the screen controls and to specify the different paths for different functionalities in your program.

Dictionary/ Word Education Application

- Include a Random option on the Right button along with the previous and next options
- Increase the font size for the word (not huge, but some)
- On the start screen the words should display in a random order
- Create notes on kuix (advantages, disadvantages, why choose)
- Add link to presentation

Possible Advancements:

- Overlay the letter of the alphabet on the image when the cursor is on the image
- Plural and Singular forms of the words
- Spell the word
- Audio file for saying the first letter of the word

Account Book

- Use the same pictures for \$ on all screens (and use senegal money symbol, not dollar)
- Move taxi option to outgoing
- change categories to more specific groups (in incoming)
- Need to make motivational items contextual to Senegal (sewing machine, clothes, make-up, etc)
- Highlight proportions of motivational items to show partial achievement

Fisher Woman

- Use consistent icons across the board
- Add audio for "Sell for more than"
