

CSE595 Algorithms for Wireless Sensor Networks

Jie Gao

Computer Science

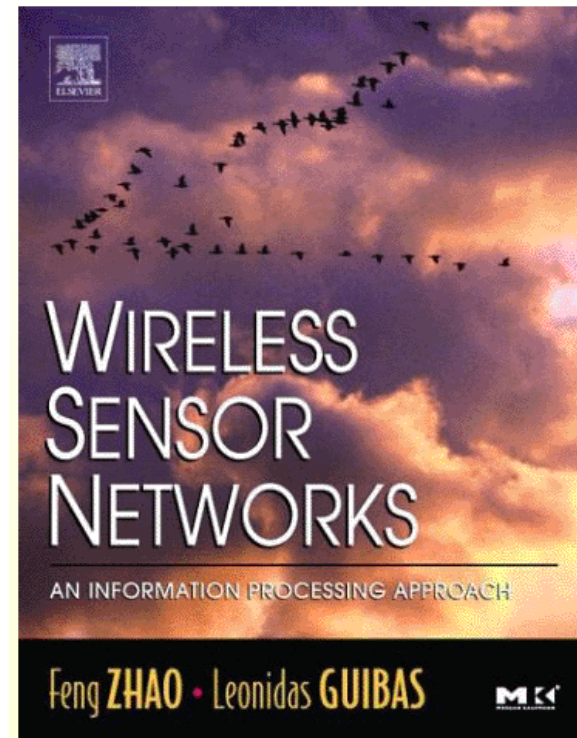

Stony Brook University

Course information

- <http://www.cs.sunysb.edu/~jgao/CSE595-spring09/>
- TTh 3:50-5:10pm at Stony Brook Union 231
- Office hour: 1415 Computer Science Building
Thursday 5:30-6:30pm, or by appointment

Course Materials

- Research papers posted on course webpage.
- Textbooks:

Grading

- Class participation: 20%
 - Class attendance
 - Paper presentation: 1 paper per student, 30 mins.
- Homework: 30%
 - Related to the class materials
- Final project: 50%
- No exams

Final Projects

- A list of project ideas will be handed out in the next few weeks. You can come up with your own.
- Two students may collaborate
- Theory track or Application track
- Focus: novelty. You will be funded to travel to conference if you can get a paper accepted.
- You are welcome to come discuss with me your ideas.
- Have fun!
