

CSE526: Principles of Programming Languages (Spring 2003)

Scott Stoller

hw4 (version 9:00, 20feb2003), due in class on 4 Mar 2003

Each problem is worth 10 points. Please justify your answers.

Problem 1

Exercise 5.3(a).

Problem 2

Exercise 5.6. You only need to give inference rules for **catchin** and **fail**. You do not need to give formal proofs of soundness for the inference rules. You do need to write a few sentences explaining informally why each inference rule is sound.
